

COVID-19 SAFETY MEASURES

Here is what to expect when you return to PPAC for shows!

GBAC STAR® Facility Certification

PPAC is now a Global Biorisk Advisory Council (GBAC) STAR® accredited facility. GBAC is the gold standard for cleaning, disinfection, and infectious disease prevention.

Wellness Checks

Before entering the theatre, all staff and guests will have their temperatures checked and will be screened for symptoms. Anyone with a fever after two temperature checks will not be allowed in the venue.

Masks Up; Curtains Up!

Masks are required for staff and guests as outlined by local and state health officials.

Hand Hygiene

All guests and staff members must hand sanitize before entering PPAC. We've also added over 90 hand sanitizers throughout the theatre. Staff members also frequently wash hands during their shifts.

Physical Distancing

PPAC has placed six-foot distancing markers for entry to our lobbies and in other locations where lines may form.

Contactless

PPAC has implemented contactless ticket scanning, restroom fixtures, food and drink ordering, and payment processing.

Committed to Clean

Per CDC guidelines, and using EPA certified cleaning agents and disinfectants, PPAC is deep cleaned **after every performance**. High-touched surfaces are cleaned more frequently (at least six times daily).
